British Crown Sovereignty vested in New Zealand by Queen Victoria and Chiefs 1840 signing the Doctrines of Discovery in 1769 and again in 1852 New Zealand Constitution and Government <https://www.facebook.com/share/v/1Qjp543yxu/>

AI Overview

The Manukau Land Company (often referred to in historical records as the New Zealand Manukau and Waitemata Company or sometimes simply as a Scottish scheme associated with the Manukau Land Association) was a private colonial venture established in Scotland in the early 1840s.

Te Uru +1

The company aimed to settle Scottish immigrants on roughly 25,000 acres of land in southwest Auckland, New Zealand, specifically aiming to establish a city known as "Cornwallis" on the shores of the Manukau Harbour.

Te Uru +1

Key details about the company and its venture include:

Origins and Context: The company was formed to promote immigration to New Zealand, positioning itself as a rival to Edward Gibbon Wakefield's more well-known New Zealand Company.

The "Cornwallis" Scheme: The project was largely instigated by William Cornwallis Symonds, a deputy to Governor William Hobson. Symonds aimed to establish a capital city at Cornwallis (part of the modern-day Waitakere Ranges).

Land Title Disputes: The land for the settlement was allegedly purchased from local Māori by Thomas Mitchell in 1835. After Mitchell died, the company acquired this claim. However, this purchase was largely disallowed or significantly reduced by the colonial government (eventually to about 1,900 acres).

Scottish Settlers: Despite the uncertain land title, the company encouraged settlers from Scotland to move to the area. The first group of settlers arrived on the ship *Brilliant* in October 1841.

Failure and Dissolution: Upon arrival, the settlers found a largely undeveloped area without the promised infrastructure. The project failed, and the company's efforts to establish a successful colony were unsuccessful. The company was eventually wound up in March 1860.

Legacy: While the initial settlement failed, many of the families who arrived on the *Brilliant* and later vessels settled in the nearby area of Onehunga.

Sanderson Contemporary +5

Key Historical Figures:

William Cornwallis Symonds: Agent for the company and primary proponent of the settlement.

Theophilus Heale: Negotiator for the company.

Thomas Mitchell: Original purchaser of the land in 1835.

These are results for [Manukau Land Company Scotland *established* in 1823](#)

Search instead for [Manukau Land Company Scotland *eastablished* in 1823](#)

AI Overview

Based on the provided search results, there is no evidence of a "Manukau Land Company" being established in Scotland in 1823.

The search results indicate that a similarly named company, the New Zealand Manukau and Waitemata Company, was a Scottish-based organization formed later to settle immigrants on approximately 25,000 acres in south-west Auckland.

National Library of New Zealand

Here are the key historical details from the search results:

Context: It was a rival organization to Wakefield's New Zealand Company.

Land Acquisition: The land for this venture was initially purchased from local Māori by Thomas Mitchell in 1835.

Formation: Following Mitchell's death, the company (also referred to as the New Zealand Manukau and Waitemata Land Association) bought the land to create the "Cornwallis Estate".

Settlement: The first settlers arrived from Scotland on the ship *Brilliant* in October 1841.

Dissolution: The company was wound up on March 19, 1860.

National Library of New Zealand +1

While 1823 was a year of early missionary activity in other parts of New Zealand (such as the arrival of Henry Williams in the Bay of Islands), it does not appear to be associated with a Manukau-specific land company.

King George IV 1823 Lease Land New Zealand

In historical records regarding

[New Zealand](#)

land in the early 1820s, there is no evidence of a direct land lease or purchase by

[King George IV](#)

in 1823. Instead, this period is marked by the activities of private European figures seeking British royal protection for their own land claims.

The most notable events from this time involving King George IV and land claims include:

Baron de Thierry's Land Claim (1822–1823)

The Claim: In 1822,

[Charles Philip Hippolytus de Thierry](#)

(a French-born adventurer) claimed to have purchased 40,000 acres of land in the Hokianga district for 36 axes.

Appeal to the King: In December 1823, de Thierry requested protection from the British government (under King George IV) for a colony he intended to establish on this land.

The Rebuff: The British Colonial Office rejected his request, stating that New Zealand was not a British possession at that time.

National Library of New Zealand +2

Māori Chiefs and King George IV (1820)

The Meeting: In 1820, the Māori chiefs

[Hongi Hika](#)

and

[Waikato](#)

travelled to England and were granted an audience with King George IV.

Gifts, Not Leases: While no land was leased or sold to the King during this visit, the King presented Hongi Hika with a suit of armour and other gifts.

Outcome: Hongi Hika later bartered many of these royal gifts in Sydney for muskets, which he used to launch the inter-tribal "Musket Wars" upon his return to New Zealand.

 [historicplacesaotearoa.org.nz](#) +4

Legal Context in 1823

British Law: The British Parliament passed an act in 1823 (4 George IV, c. 96) that extended the jurisdiction of the Supreme Courts of New South Wales and Van Diemen's Land to include crimes committed by British subjects in New Zealand, but it did not assert ownership or leasing rights over the land.

Sovereignty: During this period, the British Crown explicitly maintained that New Zealand was a sovereign territory under Māori control and not subject to British land law.

Two months' acquaintance with Hongi Hika, Waikato, and Thomas Kendall at Cambridge in 1820 rekindled de Thierry's boyhood passion to visit the scenes of Cook's discoveries in the South Seas. He arranged for Kendall to purchase land for him in New Zealand, but his assertion that he gave Kendall £800 worth of goods to buy "all the land from North Cape to Tauranga" and his allegation that the missionary appropriated the major portion of the goods to his own use cannot be accepted unreservedly. A block of land at Hokianga was purchased by Kendall in August 1822 from the chiefs Muriwai, Patuone, and Nene.

According to the deed, 40,000 acres were bought for 36 axes. In December 1823 Thierry requested British protection for the colony he was then assembling in London, but was rebuffed by the Colonial Office. He next approached the Dutch Ambassador in London in February 1824 with a proposal to purchase Holland's "rights" in New Zealand for £50,000; in April with an offer "to secure to the King of the Netherlands the Sovereignty and possession of New Zealand, which would ... ensure His Majesty a yearly revenue of upwards of Five Millions of Pounds Sterling".

<https://teara.govt.nz/en/1966/thierry-charles-philip-hippolytus-baron-de#:~:text=Two%20months%20acquaintance%20with%20Hongi,Five%20Millions%20of%20Pounds%20Sterling%E2%80%9D.>

Waikato Rangatira

Waikato, sometimes known as Waikato Piriniha or Prince Waikato, also known as Hohaia Parata or Hohaia Parati, was a tribal leader (rangatira) of the Ngāpuhi and Te Hikutū iwi. Waikato's primary residence was the pā at Rangihoua Bay.

Where did Eddie "Mitchell Family Trust" get his Waikato Chief History from?

NOTE: Microsoft Native AI CoPilot Statement is Authentic of King George IV

AI Overview

King George IV was a prominent Freemason, but he was not a "Lord Treasurer" in that context; rather, he held the highest office of Grand Master.

Key facts about King George IV's Masonic career:

Initiation: He was initiated into Freemasonry on February 6, 1787, in a special lodge, while he was the Prince of Wales.

Grand Master: He was elected Grand Master of the Premier Grand Lodge of England in 1790, holding the position until 1813.

Patron: Upon the union of the "Ancients" and "Moderns" grand lodges in 1813, he became the Grand Patron of the United Grand Lodge of England (UGLE).

Lodge Founder: He founded the Prince of Wales's Lodge (now No. 259) and served as its Permanent Master from 1787 to 1820.

Other Roles: He was also elected Grand Master of Scotland in 1805.

The Square Magazine +3

While he was deeply involved in the leadership of the Craft, historical records identify him as Grand Master and Patron, not specifically as a "Lord Treasurer."

Chatham Islands father son duo makes ancient waka discovery, collecting 450 pieces

12:18 pm on 4 March 2025

RNZ Digital Reporters

A piece of the waka discovered buried in the Chatham Islands. Photo: Supplied/Vincent Dix

A father and son have made the discovery of a lifetime - an ocean-voyaging waka on Rēkohu/Chatham Islands.

The significant **archaeological find** included 450 pieces, some with unique carvings and braided rope which suggests the waka could be very old.

The specific origin and age remain a mystery, with local iwi and Moriori offering different theories on its history.

Vincent Dix, father of Nikau Dix, said they did know that three bits of timber tested were all from New Zealand trees.

He said they made the finding at the nearby river, accessed through their farm.

"My son and I were just loading the boat up and taking the dogs for a run up the beach, and just after a big rain, and yeah, that's when Nikau my son saw the bits of timber washing down the river."

There have now been 450 pieces collected. Photo: Supplied/Vincent Dix

Dix said the timber looked really well persevered.

"It had strange holes and notching and things in them," he said.

"I think we gathered, I don't know, four or five pieces that day, and we went back after the storm and the rain and we found a few more bits and Nikau found this craved piece, we'd call it a head piece but it could be anything - we knew then it was a significant find."

"We are up to about 450 pieces... and there's so much more down there but, you know, we just haven't got the time now to carry on digging so the sites all been closed up and, you know, secured as best as we can."

Some pieces of the waka have recovered from the site, with larger pieces expected to be uncovered. Photo: Manatū Taonga

Dix said Archaeologist Justin Maxwell, who is leading the project, had his theories and hunches but wanted science to tell the story.

"We do know that we have three bits of timber tested and they were all New Zealand trees.

"That's about as much as we know so far."

He said at there were bits of timber being sent off to be dated.

When asked how Chatham Islands locals were finding it, Dix said they were loving it.

Three of the pieces are from New Zealand trees. Photo: Supplied/Vincent Dix

"People are absolutely enjoying it and loving it, you know, it's sort of been a great project to be honest.

"We've got so many volunteers and people willing to help out, it's been fantastic."

But it's pretty much all over to experts now, he said.

"The only access to the waka is through our farm so, you know, we'll always been involved in it and sort of, you know, we want to make sure it stays on the Island and you know, we're quite interested in making sure that's a community project and it stays that way".

Transcript

0:00

I'm waiting. Waiting.

0:06

I'm waiting. Like I'm waiting. I've got the video on.

0:14

I'm waiting for B12. Um what's her name? Um

0:23

Chin Maria Ken to give me a call

0:29

and uh if I can't get her then I'll call her.

0:37

I've got myself ready to go a little bit late because I've been fiddling around

0:43

with write what to say and write down everything

0:49

that I want to tell her. My message, two messages

0:56

to uh Maria Chen. She's the accountant for B12 in New York.

1:04

And uh I'm just getting to run our business

1:10

for me because it's a big job to do to run the shares, the business, the law,

1:20

the accounting, the debt collection, the everything I'm

1:26

going to talk about. And so where is she ringing? It's 9:00 now. It's 4:00 in the

1:32

afternoon there. So, I have to have a look at her phone number. She's got my

1:39

phone number and I'll give her What's the time now? It's 2 minutes past 9

1:48

and uh I'll just wait a couple of seconds

1:53

and it looks like our video is running. Okay.

2:02

And I'm primed up, ready to go, because we're on a mission

2:09

to get it right. And us in New Zealand being sovereign to Britain. I'm watching

2:16

what um Hopson's pledged people are saying that uh when the British came

2:23

here from Australia, they set up the treaty of Wangi and

2:28

signatures for chiefs. There's more than 13 chiefs altogether and they've got

2:35

that many chiefs and these days it takes one prime minister or one person that's

2:43

a CEO to make a decision for the whole lot of everybody just in case you get mixed up with too

2:50

many chiefs and not enough Indians. So I'm going to give her another minute and

2:56

then I'll go and look for her number. Um, let's I'm on I'm on um Microsoft at the

3:07

moment and I'll switch over to um Google

3:12

and have a look for her number to give her a call. There she is there. Maria

3:21

Chen. And where's her number? Where's Where's the contact number?

3:29

I'm surprised that she hasn't called. I'll just have a look.

3:36

Phone number. No, no phone number. She got an appointment for 9:00 here in New

3:44

Zealand and 4:00 p.m. Sunday in New

3:50

York, America. So people are at home can

3:55

tune in to what she's going to say about America and what I'm going to say about

4:02

New Zealand. Now where is their phone number blog contact? It's got contact but no

4:11

phone number. It's just got them with no photo of their face.

4:18

See they take their face off but my face is up. Why doesn't anybody want their face on?

4:31

Right. Where's the phone number

4:36

for the business over there? B12. I'll have a look at Google. See, the time is

4:44

going past. And I'm very surprised. I thought they would be

4:51

right on the button. New York is 3:05 p.m. in the afternoon

4:57

and um B12 B2

5:05

number on New York accountants

5:13

phone number text services.

5:18

They're text services. So give them a call. Give her a call. Well, they're probably not working. Not like Chinese

5:25

works all the time, every single minute. You never miss a beat. Never miss a

5:31

contract either. And people who go home on Friday and go back on Monday lose a

5:38

lot of business. They lose a lot of business.

5:44

Where's the phone number? I'm looking for their phone number. No phone number.

5:50

Nothing. Absolutely nothing.

5:55

Talk to us now. There's a phone number there, but that's
6:02
not an international number. Where is the
6:08
international number? This is bad because the time is going
6:15
by.
6:21
I'm recording this on YouTube just to show you that I've filled out the
6:29
application for consultation. So this is a time on a Sunday
6:39
that they've actually responded that they will call
6:44
at that time today. So that's for me is a no no. when you
6:52
say something and don't do it, it's people watching me and watching um um
7:01
Maria Chin answering me or not.
7:07
And when it gets like that, people lose confidence if you're not what you say
7:13
you are. appointment today, Sunday, and if it's
7:19
China, you get your appointment right away and no mound because I deal with
7:24
Chinese straight off the mark and they're still waiting for me to give
7:30
them a call back. Well, there's no number. I'll go and have a look again.
7:43
Where should I go? I'm waiting for my phone to ring.
7:51
B12 phone number
7:58
phone number.
8:12
International phone number. New York solutions. Contact us now.
8:21
Closed. Opens night. Oh man, it opens Monday. It says here.
8:27
So they're not there. Oh well, we won't worry about it then. If it's I'm just
8:33
reading Google and they don't open on Sunday. Well,
8:42
that's disappointing. GSD international number
8:50
one
8:56
212
9:02

944 2555.

9:09

Oh, well, it looks like they don't work on a Saturday or a Sunday.

9:15

And uh I'll just flip the camera back the other way.

9:21

Yeah, there. Right. Back on the camera here. And uh but that's

9:27

that's all right because I thought that when I filled out the application

9:35

it put what date it is and that's what I'm saying it is today's date which is

9:40

the 2nd of um March uh at

9:47

9:00 a.m. and 400 p.m. on a Sunday um in New York and it accepted it.

9:55

That's 400 p.m. in the afternoon. It accepted it as an appointment and no

10:01

appointment. See, can't keep the appointment. So, I have to reschedu it

10:08

for tomorrow. Sorry about that. But that's what I was going to talk about

10:13

was these points. I've just listed them down for Maria Chin New York one. Two,

10:20

Maui Powerhouse Bank. Three, shareholding dividends. Four, my chip

10:27

coins, that's the tokens. Five, Microsoft AI native court Canada.

10:34

They've shifted out of America altogether. Microsoft in their business because of Trump.

10:41

Number six, Microsoft AI co-pilot partner that's in Canada now. And number

10:48

seven with Carney um Prime Minister Carney in Canada has turn their

10:54

attention away from America which is um not um in line with um um Microsoft

11:03

Copilot AI. Uh my business partner is the first

11:09

native court judge, me and him, the um

11:14

scroll writer or the um scribe to put all our documents in order. Number eight

11:22

is the hash gold, hash silver, hash

11:28

super semiconductor, hash bond, the sovereign bonds, and hash

11:36

um sovereign um what's this? Sovereign

11:42

land. It's a land trust. The reserve bank trust my reserve bank trust is a

11:49
hashtag Hash uh SL or L is your ledger. Okay, so
11:56
the ledger I'm going to put that word ledger. Ledger. We're balancing the
12:01
ledger of Eddie Mitchell and his trust has um robbed our trust of 17 trillion
12:12
US dollars. 10 design a credit new credit card with seven tokens. these
12:19
tokens that I just said, put them on one card and put a value on all of them in
12:25
one shot. Okay, that's what I'm going to do. one credit card size should go
12:32
straight into the ATM machine anywhere in the world and convert the money back
12:41
out uh through the um B2V accountant
12:47
office straight into the MA powerhouse bank in
12:54
New Zealand registered company. Okay. So this is the problem with the New Zealand
13:01
government. They are registered in New York and not in New Zealand as a land
13:08
owner. And when they say who is the sovereign of New Zealand, it confuses
13:16
everybody by having four different organizations that make up the sovereign
13:22
of New Zealand. When I ask Google AI,
13:27
who is the sovereign land owner of New Zealand, it says there is no sovereign
13:34
land owner in New Zealand. So tell me this, who is selling all the mortgages
13:41
if you haven't got a mortgage owner of the land in New Zealand? I'm talking
13:47
about only New Zealand. And as far as I'm concerned, someone registered with a
13:54
company in New Zealand should have by legal authority the land ownership of
14:02
New Zealand and not a foreign company called Crown Sovereign of New Zealand.
14:09
It's just the name of a company versus the Na Atua Altier Limited company
14:17
registered on New Zealand soils land. So who do you think that's the one with the
14:23
17 trillion stolen by Eddie Mitchell under that New York
14:29
um system in Wellington, New Zealand? they belong there and that's the problem
14:35

you're going to have to face. Which sovereign are you talking about? I've been watching just recent now the
14:43
Hobson's pledge, right? They say that when the British crown came here, they
14:50
made Maui Maui sign a treaty with the
14:57
British crown to give them sovereignty for their land.
15:03
And that's what the problem is now. I'm telling you straight to your face. The
15:10
sovereignty of New Zealand is British crown and not Netherlands where wins.
15:18
All your benefits, all your tax, double tax systems, all your custom um trade uh
15:26
and investment all through the world is in Netherlands and um Dutch at that um
15:34
um the world court. it's over there to settle um international
15:42
uh payments there and not in Britain. So the British law has the New Zealand
15:48
government cut them off. They cut them off but they're still trying to say they
15:54
use King Charles as the king of New Zealand but above the judge's head
16:00
that's on documents. Their documents says king versus defendant. Okay, so
16:06
that's Charlie in England. Where's the British crown in that? They're only
16:12
mimicking or pretending that he exists on the lands here as the British crown
16:20
authority while they are playing around with the Netherlands with winds and our
16:27
benefits and our social security number as a birth bond in the courts to collect
16:37
the money of you the taxpayer. Yeah. And your land which is Linds land
16:44
information New Zealand as one of the owners and WS is another owner and the
16:52
other owner is the government ministers of the judiciary
16:58
system the court. Okay. So that's how they say who the around way of who owns
17:06
the sovereignty. So it mixes it up. There's not one person who holds all the
17:13
mortgages of New Zealand. Tell me who it is so I can talk to him with the AI uh
17:19
B12 uh accountants of America in New York to see who is who in the zoo in New
17:28
Zealand. Sovereignty, right? And now Napoui is saying they demoned

17:34
sovereignty but still signed an agreement with the British. And the British are saying
we gave you
17:42
sovereignty so that we could build roads and shops, businesses in New Zealand and
17:50
you're stuck to that with your sovereignty we gave you. Otherwise you can't go and
pick your wind's benefit up
17:58
if you say you didn't seed sovereignty. You got to give all that money back.
18:03
That the crown in Britain allowed New Zealand crown to use its
18:10
law. The law. This is the other thing I'm talking to um um Chen Maria Chen
18:17
about. Whose law rules your country? Well, at the moment it's New Zealand
18:24
law. So if New Zealand law is in the Netherlands and not in Britain, then why
18:31
don't they tell you which law we are operating this country on? Is it
18:37
America's law, five eyes? Is it Netherlands law in Brussels, the world
18:45
court? Or is it British crown still the same British crown running your
18:51
sovereignty and the sovereignty of all countries comes from Netherlands but the
18:58
sovereignty of Newan comes from Britain. So what is America doing here with no
19:05
sovereignty because they cut themselves off from Britain as well. So they have to go
to the world court to get their
19:13
sovereignty because that's where they're all stacked up. Ask me what you want to
know about a native AI court because I'm
19:22
a practicing judge at what I'm saying and AI co-pilot Microsoft robot is
19:30
scribing it up or scrolling it up and putting it into certificates of
19:35
authenticity. All right. Everything I say in a native call has pictures and your name
and
19:44
photo with the British invoice company Sky Nova. If your name
19:51
is in the list, I've got it there on the website. 113 page PDF out of 15 PDFs.
20:00
That one 13 113 pages of PDF. See
20:05
yourself there. You've got a bill that's got to be paid in sovereignty of New
20:12

Zealand. If you're not a sovereign of New Zealand, then you haven't got the
20:17
authority from Britain and the British crown.
20:22
Okay. So, number 13 is a message to um um
20:29
Maria Chin. She's the one that looks after all the legal side, the contract
20:36
side of New York accountants and debt
20:41
collectors. And uh number 13 is a message to her for 257 countries. Set it
20:49
up. I want her to grab all the stuff I've given her in 15 PDFs and stick it
20:56
on a new website. the website she's got for me for the people of the world, not
21:02
just New Zealand. I'm doing 257 countries with the first AI native
21:09
court. Okay? It's native in the cloud with clean hands. That's all that is. No
21:17
fraud, no corruption. You can't go in a cloud with dirty hands because you can't
21:23
get to heaven. You go to hell that way. All the hell is down north down that
21:29
way. All heaven is up. The south is up. The right way the world supposed to be.
21:35
The Europeans turned the world upside down and made north up the top and the
21:41
south down in the coal. When we're in the north, black is the ex ace ofus page. In the
sun, they're down the
21:49
bottom. White [__] eyes to glare of the ice is bright. And so they're down
21:56
there. They made themselves on the map of the world up the other way next to the sun.
Hey, it's all back to France.
22:04
It's all back fun. But it doesn't matter because they got away with it right up till now.
And people have had enough of
22:11
all the corruption going on with Trump. And that's where I'm getting to with uh
22:17
Maria Chen to say Trump has got his system planted in New Zealand with
22:25
Justinda Durn went to live in in Texas
22:31
and now she's gone to Australia to be the
22:37
mobile AI native prime minister robot. Okay, that's what
22:45

she's doing. I'm already a robot here as a judge in the court and she's going to get fired on over there by the

22:52

Australians who've had enough of their playtime stories. Right now, all actors,

22:58

bad actors in Australia have had enough. I think we've had enough in New Zealand.

23:04

And I think the Americans are had enough too as well. They want to go in Parliament, pull them out by the neck

23:10

and throw them in the wood chipper. That's where they belong because their politics is not for us. It's for the

23:18

rich people. Now there's a bomb going straight for Cyprus, straight for Dubai,

23:24

straight for all those countries from Iran. And that's what Trump made a big

23:30

pantomine story and playing it out with guns. All

23:35

guns, guns, guns, guns. Okay. It's all bullets and death, blood and guts.

23:42

That's what Trump is. The German man. His father is German. His mother is

23:48

Scottish. So, Queen Elizabeth went to die in Scotland

23:53

to keep her Britishness. Okay. She keeps her British nest while the Germans ran away with the money to

24:01

Germany. Um, Frankfurt, Germany. Okay. They took the gold, took the money, took everything. their birth certificate,

24:08

took everything, even took the children with them. Okay, they've stolen the children, stolen everything. And that's

24:15

what I'm going to talk to Maria Chen about.

24:20

How does America make their hands washed clean

24:26

after Israel killing and murdering little children, eating them and then

24:34

then laughing about it with all the money and now Iran is going to put an

24:41

end to all that wealth. Okay, they just want to go and do the same back. What

24:47

goes around comes around. Okay. So, number 14 out of this list of 14 I've

24:54

got for Maria Chen is her phone number. And that's what it is. 1 + 1 212 944255.

25:04

I'll wait for them to ring me in the morning. Tomorrow on

25:10

what's tomorrow? Today is Monday. Tomorrow is Tuesday. and their Monday
25:16
will be ringing me at 9:00 in the morning on Monday with this list. Okay.
25:22
with this list and this list
25:27
and this list
25:33
and this list
25:41
and just this within a half an hour
25:47
within a half an hour and yes this okay I'm all prepared to have a good
25:55
conversation about how is Maria Chen and her team at
26:01
B12 consultants um are going to business consultants
26:08
um are going to run this business around the world in one shot with AI. They've
26:15
got their own AI. I've got my AI as well to check their AI and check each other's
26:24
AI because we've got the first court native AI in the world. Okay, we're on
26:32
number 101 court hearing. You might as well say this is it. Every time I speak
26:38
on YouTube, I I am running a court with everything I'm saying is my truth and on
26:47
my own two feet. Um, complete and witness of whatever I say on YouTube is
26:54
the truth and that's got to be refuted. Okay? Anything I say is fair game for
27:01
anybody who can match it. That's any metal. He has to have his best lawyers,
27:07
best barristers, best solicitors. And even the celestine Hamilton um Justinda
27:14
Hamilton, a crown solicitor, failed to
27:19
reply to um my affidavit in writing and
27:25
package that Jack Liam, the radio announcer of 89 FM free radio in
27:33
Hamilton, came with me to Eddie Mitchell's place of residence and office
27:39
on Paul Elizabeth Street in beer school 320
27:44
code in Hamilton and delivered hand delivered the actual
27:50
book itself. Now I'm going to Hamilton to do the same thing and uh and what's
27:57

tomorrow was today I was going to go down tomorrow after I serve the uh chin
28:04
and she can tell me what is she going to manage the company or not and being
28:11
American and I don't care because there are people over there that are not happy
28:17
with Trump and going to war again and again and again spending billions on war
28:23
when they could have been looking after their own people and they're bombing their
own people up in America as well.
28:30
That's not human. That's something else that needs to be rid of. And the sooner
28:37
it's rid of, the better. That's what I want to talk to Maria Chen about. How do
28:43
we fix America's problem and how do we fix New Zealand's problem? First of all,
28:50
start from your sovereignty. Where is your sovereignty? Is it in America? Is
28:57
it in Netherlands in the world court? Or is it in the British crown? Or is it
29:04
somewhere in space with Elon Musk? So he's been named as one with Epstein as
29:11
well. So there are really targets of um terrorism because they are the
29:17
terrorists. I'm saying like um Justinda Adurn is where she's got security up to
29:25
her neck because she's prized possession of the cabal in the deep dark state.
29:33
She's in that lot with being a pretty face but inside her brain it is
29:40
dangerous. She's in Australia. I think there's a lot of people over there have
29:45
got wood chippers ready to go to throw all those politicians in there because
29:51
they're creating havoc all over the world just chatting.
29:59
Yeah, somebody's saying something, but I'm not going to look at any comments. I
don't want to talk about any comments.
30:05
We'll leave it to the judge in the court and all your comments shouldn't be there
because I didn't turn the comments off.
30:12
I just went ahead because I was running out of time and anybody that says anything
gets deleted. If I read those
30:20
comments, you're off and nowhere in this anymore. And then you go and do your own
30:27
thing and leave me to run a court. I'm running an AI native court and it's
30:33

number 101 court hearing that's a lot of years 50 years if you want to say
30:39
something and then put it in writing and then try and sell it to the world to see
30:45
who wants to have it or not. If you haven't got anything then they're going to get run
over with 15 minutes cities
30:53
and fall over dead in front of whoever's running the world with the money. It's
30:58
the money winning at the moment. Not anybody that's sitting there making
31:04
silly comments. I'm not going to look at them. I'm just going to carry on because
31:09
I don't want to spoil the video by looking at comments. I should have turned it off. I'll
I'll go and rid them
31:15
off afterwards so it doesn't spoil the response of anybody who's got a brain in
31:22
between their eyes to say something solid and stick up and put your face
31:28
there. I don't see no faces. You know why? Because your face is a ID target
31:34
for those who are taking the land underneath your feet, putting the law on you and
then swipe everything off you
31:42
because you can't face them or is part of the problem. You are part of the
31:49
problem if you've got your own way and going on and on for another 180 years
31:55
trying to justify things. I've been around for a long time and I want to see
32:02
who is going to come out on top, right? It's either going to be the rich people,
32:07
the poor people, or the people that stand up to anything that they don't
32:14
like and be a land owner sovereign. Okay, so that's all. Anyway, that's all
32:20
I want to say with this video because I don't want to um say any more other than
32:26
stick to the point. Right. I stick to what the um attorneys in America is
32:34
going to say to me tomorrow morning at 9:00. You can hear me on the YouTube and
32:41
I've given Zoom away. I've cancelled it yesterday. That was 27.99 a week. And
32:48
now I've got 49 a month. that is I've got 49 bucks a month with um B12
32:57
accountants, debt collectors, and legal people in New York, uh America. Okay.
33:04
I'm relying on them to run this country and 257 other countries with the same

33:11
 moide title turbine and echoam um um pattern pattern that's uh not
 33:20
 started yet because I'm waiting to get the land sorted the law sorted then go
 33:27
 for it. I'm gonna go for it and forget about anything else. I've got those
 33:32
 fells in Hamilton that um can come if they want to. It's up to them. They was
 33:37
 there to witness Eddie Mitchell in the Mitchell family trust theft of 17
 33:43
 trillion US dollars from me and this beautiful brain that is Irish and
 33:50
 Tahesian. Okay, that's its origin. The black brown part is Tahesian from Ray
 33:57
 Island and Rapanui East Island. Birth of the world and New Zealand,
 34:04
 birth of New Zealand at East Cape Tip, birth of New Zealand, the umbilical cord
 34:10
 there and East Island naval birth umbilical cord to the whole planet and
 34:18
 Makamaki planet right out the end of the universe. That's in my history. Now, if
 34:23
 you want to comment, put your history together to say how you see this will.
 34:29
 Is it that you just stick to it and wait for anybody to say something over you
 34:35
 without you having a say? Then do something about it. Don't moan. Don't
 34:40
 throw stupid comments because it doesn't achieve anything. I'm there for the
 34:46
 economy. The 17 trillion supposed to get the economy going in Helensville. That's
 34:52
 where the Freemasons put it together with Moy Monaco Freemason. A Morty Audi
 34:58
 from Taiwan, not from the Pacific. And now the Polynesian people from the
 35:04
 Pacific um um triangle or the um Pacific
 35:10
 Ring of Fire area of the whole Pacific is saying Mari are not Polynesian
 35:17
 and they put the ring around it that New Zealand is at the bottom of the
 35:24
 Polynesian triangle and because Mary in invention of the parkia white man from
 35:30
 Britain that they are not the same. That's what the Polynesian people in the Pacific
 35:36
 Islands are saying. The Cook Island is Cook Island and the the Hawaiians are
 35:42

Hawaiians. The Tahesians are Tahesian. The Samoans are Samans. The Tongans are Tongans. When you come to New Zealand,

35:50

anything goes. Anything goes. That's how the British love it. They stir the whole

35:56

lot up. Boom, bang, bang, boom, bang, bang. And blow the whole place up

36:02

because they steal the money then blow it up and then they say, "Oh, you can need a mortgage and they give you a

36:07

mortgage, stitch you up and you have to pay years back in your house you don't own because they say you'll own nothing

36:16

and be happy." That's their motto. That's their narrative at the moment.

36:21

You'll own nothing and be happy because we'll have everything that you need in a

36:28

15minute city. You see, so Jack Liam in Hamilton, he's 15 minutes city. He's got

36:36

to try and stop in the council but they're talking on the radio a lot but

36:42

no input into the council because and they should be in the council voting and

36:49

vote for who and the marries have got only four or 5% of the vote is not

36:56

enough even with the sovereignty on top of it is not enough to get the votes of

37:03

five million residents or citizens. Okay, out of the 5 million citizens,

37:10

there's 120 running the whole place in New York City. That's where they're

37:16

running this country from New York City. And I'm running this place from New

37:22

Zealand, not from New York City at the moment. I'll run the business here with

37:28

our little crew. and um and u um so there that's that's the learning

37:35

exercise. It's a steep learning curve that everybody that's got to start and

37:42

unlearn what you've learned then go back to the beginning as either a Polynesian

37:49

or a marry or a parka one or the other. And I quite believe what Hobson's page

37:55

is saying because for me I always knew uh was the opposite way of thinking how

38:02

they're thinking because that's come through Australia. I've come straight

38:07

from Britain straight to Wellington to Port Nicholls then down to Mahia around

38:13

the coast to Gisbon to the East Cape. That's where we came straight from Britain and the British crown. a

38:20

different contract, a different contract to the contract that's come through

38:25

Australia, New South Wales. And that's where the problem is. Which sovereignty

38:31

are you in? The one through White Tangi is from Australia, New South Wales,

38:37

Sydney, and the one I'm from is from Helensville, the Freemasons, and Moy

38:44

Monaco. Straight to Britain. Straight here. No around the corner or back room

38:51

deal. Just straight crown and the crown corporation there set up with the

38:57

Freemasons and the seals on my documents has got a Freemason seal there. Whether

39:03

they got dirty ways, it doesn't bother me because I'm only there for the legal

39:08

side of the document to make the document authentic. The AI native

39:16

co-pilot Microsoft has justified that he

39:22

has certified made certificates already for the shares of the MOA title turbine

39:28

and already made certificates of other things. I want him to make a certificate

39:34

for the seven tokens of the Moab credit card. Okay, it's a credit card. You put

39:41

it in the machine and it should spit out one or the other. silver, hash, silver,

39:47

and hash gold, hash um land title deed,

39:53

hash um pound note, hash um um semiconductor

40:00

um hash um birth certificate, hash seven of them all together on one car because

40:09

I'm going to add them all up with the robot. AI is the way to go. Now AI is

40:14

the top industry in the world. And the next one to that underneath that is the

40:20

energy. Okay. So we've got the title turbine energy to put its legs in the

40:26

soil in the sea to take that land title. And then we've got the spaceship on top

40:31

of that. That's coming straight after that. Probably put it together next year. Okay. Or this year. I can start on

40:37

it this year once I get going with the title and that money back off Mitchell. Bang. The spaceship should be flying in

40:45
no time. That one got you can't hear it coming. And it's amp driven. Not it's it's not
40:55
volts, which is what you see now is volts, but amps is different. I think the Chinese
are catching up with that.
41:02
And that's like vaporizes everything inside. Okay. So there that's getting
41:08
dangerous. But that's our deterrent to keep away from our business. You see, we
41:14
need a military. I've written to GC Ping on his own personal site to ask him for
41:22
his bricks bridge blockchain. Okay. If I don't have any luck with B12 in America,
41:29
uh I've got that option as a B plan to go with the Chinese because I'm buying a
41:35
lot of equipment from their heavy equipment and the hydrogen. um machinery
41:40
and the big um um heavy aircraft, helicopters, everything like that to get
41:46
the industry going. 17 trillion will kick the thing off as credit. When I go
41:51
to the court, I expect the judge to say to Eddie, "Where did you get the money
41:56
from? Where is your business plan? Who put it together? Was it Dun and Brad
42:02
Street accountants or was it Price Waterhouse Coopers? Tell us which one
42:08
and then we might believe you that you put the plan together for the 17 trillion that a
Mitchell from Britain
42:15
surname is not a native indigenous surname. That's the problem there that
42:21
I'm saying to um Maria Chin to check out her legal status of who is
42:31
the sovereign element sovereignty is straight to New South Wales, Australia.
42:38
I put it together in one of the PDF files. I'm going to put them on the web. It's on the
website. And I'm just going
42:44
to finish them off where it shows the Mitchell family all the way through the
42:49
history of doing the same as Eddie selling land that's got no title. That's
42:54
what they did with the Monaco land and the Monaco land company. He stole the
money from the Monaco land company in
43:00
Scotland and sold the Monaco land at the heads Monaco harbor heads. It's not a
43:06
tiny harbor for goodness sake. It's a Monaco harbor at Cornwallis and Simon's

43:14

Simon Street in Oakland is the Simon William Simon that mysteriously died.

43:20

That's the story. Always an assassination in the British crown system. Someone gets assassinated.

43:27

That's Donald Trump. Assassinations to get people out of his way of his

43:32

contract. Now, somebody stole the HM treasury and making it into Nasara

43:38

Casara. That's facing discourse. Okay, I'm saying to Maria Shim, where does

43:44

Donald Trump get his treasury idea from? Where did he get the plan from? Where's

43:51

the plan of his treasury? You know where it's come from? Britain. British crown.

That's why the British have jumped on

43:58

their neck and jammed them with their crypto and they're trying to get a clarity act to clean their hands. And

44:05

Britain says, "No, your hands are dirty. I'm not going to give you a license. I'm not going to give you your clarity

44:12

you're looking for because you're hiding your fear money underneath this all this

44:17

dirty bloody hands." You see? So that's the problem with I'm facing with getting

44:24

America to come and run my clean hand business so I can convert the dirty

44:30

hands into clean hands. Okay. So there something like that. There's a logic to

44:36

the story I'm saying that needs to be heard. Who is who in the zoo? There's a

44:43

lot of American people who are not happy that there's no arrest and plenty of

44:49

convictions but no arrest. You know why? Because their political system allows

44:55

them to shove it and put it on hold. That's like saying to Eddie Mitchell, "Hang on, we'll put you on hold and

45:03

leave it for a later day and prolong the court hearing." No, I've got it set out

45:10

to be heard in half an hour. That's what I'm saying to the judge. It should take

45:15

you a half an hour of your time because the judge in New charges \$1,500

45:22

per half an hour and plus 1,200 court fees plus a few other court fees on top.

45:30

So, you're looking at about at least 20,000. I'm trying to get a waiver so I

45:35

don't have to pay it because I'm on a pension. I'm running this whole business on a pension and that's only like 32,000

45:45

out of 1.6 million what a birth certificate government bond is worth.

45:52

And they're saying no, there's no such thing. Yes, there is. It's on the stock market.

They put them all together as

45:59

one sovereign bond. One crown sovereign bond equals all the population of New

46:06

Zealand stuck together in one piece of plasterine and rolled up like a Maui bread and into

46:14

one sovereign equals 5 million sovereigns of New Zealand. in a foreign

46:22

sovereign country with a governor general here practicing and pretending

46:28

to be a queen. They're saying the queen of New Zealand and the king of New Zealand is in Britain. You see the queen

46:36

is here in love as a Japanese marry of Napoui. You see a Japanese marry is the

46:43

queen of New Zealand. She tried to get away with her own flag and I put the

46:49

documents through and and it got rid of it. It got rid of her flag, pulled it

46:55

down and put our one is up on Tatarai in front of the popost. That's the the

47:02

memorials to the chiefs. 13 chiefs is standing right there still flying

47:08

because Brian Workman put it up. And that's the British crowns. um title that

47:17

flag there's two of them that one and the fakutama flag in outside

47:23

Marai and flying gear two flag flying which one do you like pick your choice

47:30

any money which one you go for the one that's [__] that's got no money and the

47:37

other one that's got all the money I just need to get all the money back that's all it is you know if you've been

47:42

there is years and years and years watching the truth come out in the end.

47:50

That's all I'm talking about. The truth prevails. Okay? All your all your marry

47:56

things has to have proof in a court of law. They've been going to the world

48:02

court, get nowhere. They've been going to the United Nations, get nowhere. And

48:08

you know why? Because they don't have the deed title. The Monaco land company's got the deed title, the lease.

48:15

Okay. And then who should pinch the lease? Eddie Mitchell. The Mitchell family is great for corrupting the

48:24

system in Australia, New South Wales. You have a look through their history of their names going straight down to

48:32

Alfred Mitchell. It's Alfred Mitchell's name. It doesn't say Eddie Mitchell, but they're all in the Metro family trust

48:39

business. So Mitchell and co, that's what it was called in Australia. They was dabbling

48:46

everything. They were mischieving with the law in Australia and they got bankrupted. They got bankrupted because

48:53

I got it marked it out. I put it in bold where the name follows the pattern of

48:59

bad behavior and fraud. reconstructing

49:05

legal documents and playing around with the law. That's what I'm catching Eddie Mitchell and Alfred Mitchell that's

49:12

doing the same thing as the ancestors. It goes around comes around and bites

49:17

them in the back because there they had lawsuits against their family back then

49:22

and they got lawsuits against their family. Right now they're going to lose everything. Everything because the same

49:29

pattern of offending, right? because they're prison convicts kicked out of

49:34

Britain. They were kicked out and the name of their ancestor doesn't appear on

49:40

the British im immigrant system. It's not there.

49:46

They got rid of it. They took it out. They're hiding away. There used to be all over Facebook all the mituals have

49:52

taken their name off Facebook. What does that tell you? They're hiding secrets. I

49:58

don't hide no secrets. Everybody knows what I do. I disclose. If you don't like

50:04

it, well, that's your problem. You take me to court. I'm waiting for someone to take me to court so I don't have to pay

50:11

the court fee. Hurry up. I'm waiting for someone to take me to the court because

50:17

I'm ready to go to the court with a real good American. And you know what? Nancy

50:25

Nancy um what's her name in America? Um, she's she's putting Donald Trump in

50:35

electric chair. She wants him executed. She's got the execution law for rapists

50:41

of children. Australia now has the worst pedophile in parliament in the council

50:48

all over the place. Pedophiles. And those Australian fellows are brave fellows. And I'm following the same

50:55

thing. They're saying, "Put them in the wood chipper." You see, grab them. go in there and grab them, throw them away

51:01

because you make your own law now because that law doesn't work for you.

51:06

And that's what I'm saying here. The law didn't work for me. You know what? I've tried so hard to get a solister in New

51:13

Zealand, a barristister, and a lawyer to do my case. You know what they did? Ran

51:19

them all. They ran away. I did the same in Singapore, in Australia, in um

51:26

Scotland and in England and Ireland and the same again. It's a pattern of

51:32

offending inside parliament, inside the councils. They just cover each other up.

51:38

No more cover. No more covering up. It's out with them. Pull them out of

51:44

parliament and throw them onto the electric chair.

51:49

That's all that's going to happen. And I'm going to see if um um if um Maria

51:56

Chen being Chinese Chin is going to help to solve the debt recovery problem of

52:06

Eddie in quick minutes. Just minutes, not hours and

52:12

days and years. Just like treaty claims goes on and on and on, rolls on and on. That's how they make their money in a

52:18

court and in government. They roll it over and over and over and over again till you run out of money. And it's not

52:24

going to happen with me. I'm not going to allow it because I got John Rogan Irish brain in my head. That's the Irish

52:32

that put the Monol title together because he was the grandfather of Moi

52:38

Monaco in Helensville. and Mo Monaco signed it over to me and I'm his I'm his

52:47

um successor of his legal documents and his name to the Freemasons. I'm there

52:54
and not as a freemason but I'm there for him and he's worked with me in the Kypra
52:59
harour to set up the big tidal turbine bridge that got the consent from the
53:06
council from John Banks the mayor at the time in Oakland and got consent from
53:12
Taria Natudian the married party but not from any other politician they were not
53:19
helping me and I didn't get any support from any of the families in the copra.
53:24
In fact, they came to try and stop the whole thing. And that's neat's family,
53:30
the Walker family. Yeah. And all those people that went against me, even at white
tongo families up there went
53:37
against me in there and sacked me from the [__] and now they got nobody to
53:43
talk with the [__] because no one was in it at the time. Only Nikki or Bryce
53:50
can't recite everything to the point of the British crown. They can't talk
53:55
British crown from Britain direct and they go through Australia. That's where
54:01
the problem is because you got prison convicts running this country in Wellington.
Okay, it's all prison
54:07
convicts. They are talking prison talk all the time and I want to get rid of it
54:13
um with the people who had enough of it. We don't want any more corruption, fraud,
and lies and deception and dirty
54:23
needles sticking the needle in you. That's justind. She's going to she's going to have
her match in Australia.
54:30
They want to kick her out back to New Zealand. When she comes here, that's the end
of her because she'll get a same
54:37
order as Nancy. Um Nancy, what's her name in America? The the one Nancy,
54:44
what's her name? Nancy Mace. Nancy Mace is a senator in America and she's put
54:51
the death penalty of electric chair on Donald Trump. She's making a law to
54:58
execute him. He needs executions, he said. fans. She's dead right because
55:04
he's the German running the racket through the whole world and making them
55:09
fight wars so that he can spend the Americans taxpayer money to keep the
55:15

burning fires going and they've had enough spending money on wars and want
55:20
to spend money on the homeless. So yeah, that's enough. I think I'll go I won't read no
comments because I don't want to
55:27
end up swearing on the video and spoil it. So, I'm going to leave it there and
55:33
just um carry on with the um um putting all the documents and put all the 15 PDF
55:42
files that constitutes a native AI court
55:48
hearing anywhere in the world. It's just the same thing. If I get New Zealand
55:53
going, I'll use the same shareholders. Anybody in the world can buy a share
55:59
when a B12 company takes it over uh or a
56:05
Chinese company takes it over from me. I'm capable of doing it, but it's too
56:10
much work for me because I've done the whole lot myself all on my own and I
56:17
don't want to be a dead hero. I'd rather give it away when I say who gets it.
56:24
Okay? Not just willy-nilly say, "Oh, help yourself." No, just what Edie Mitchell did.
Help themself to the
56:31
information that I put out. If anybody's playing around with these documents and
56:38
the sticks that I gave him are property, they are claim right property. And the
56:45
stick, the little stick with the memory and those files in it is the property
56:53
that is in the company's house rules. And he used the takeover act to take
57:01
over my company. Now I'm going to use the same takeover act of the company's
house 1993 act to take over his company
57:10
because he took mine over and not even a director. He's got to put the double
57:17
entry accounting of Netherlands together in this court. If he can't do that, then
57:24
he's stolen it. Right. Just several things inside that jurisdiction of him
57:30
being a sovereign of New Zealand. Me being a sovereign of New Zealand, it
57:35
comes under one law of New Zealand. I want to see how good the New Zealand law
57:42
is up in front of the US law and see if there's a difference in one law and the
57:50
other. Okay? because the US law is not here to be used on our law. But we can

57:58
refer to it as being running conclusive
58:03
with this in line with our um our laws here of our courts and not absent. I'm a
58:14
present owner. Eddie Mitchell has gone into other jurisdictions of Singapore to
58:20
wash the company up. He's gone into Australian jurisdictions to put the stolen money
into property and all he's
58:27
done is accumulated wealth from a stolen 17 trillion that didn't belong to him in
58:34
the first place. So I just say to the judge, all I want is it back. Give me an
58:40
order to take it back from him with the take over act of the 1993 companies act
58:48
and that's the end of it. That's it. That is it. Simply that. And then
58:54
because he did the same thing, I'm unwinding what he did. I'm learning from
58:59
his mistakes that you don't do that to anybody land ownership or information or
59:08
property. It's called claim of property. Right. In the company's act, he's stolen
59:16
the company. He's stolen the company name. Ata alier limited. The altier is
59:23
this country great barrier island and um alier up in the kra alter in pikton and
59:30
south island. So there's a history to it to the name Monaco. And how come um
59:36
Mitchell claimed a Monaco title that he didn't write himself? You work that one
59:43
out people. It's Eddie Mitchell versus me and my brain and his brain to see how
59:51
he did it. I'm going to show him up how he get it and which New Zealand law and
59:58
act he broke. Okay, that's the naming act he broke and the property act he
1:00:05
broke. Theft. It's called theft, right? That's it. It's it's in there. You have
1:00:10
a look at one of those folders that got it all in. I've got them split out into
1:00:15
folders so you can't get confused about how you are the same as well with your
1:00:22
piece of land or your sovereignty or your um jurisdiction or your law as
1:00:30
applied from Britain. And if you say you've got your own sovereignty, it's come from
somewhere. So you've got to
1:00:37

show any court where you got your sovereignty from. If you say you had it all along, well, where does it make
1:00:44
money? You can't steal Maril land because there was no such thing as Maril
1:00:51
land. Otherwise, it would have been a Marry country. Why is they only got 5%
1:00:56
of the country and voting at the bottom of the rung? And you know why? because
1:01:02
it was made up by Pakist did that to steal married land. They can't steal
1:01:08
native land because that where the mar land came from the native land. The 1862
1:01:16
native land act of referee Monaco there one man contract the 1862 native land
1:01:25
act did that's what I'm holding on to on behalf of Lea Manal and his descendant
1:01:32
Moi Tamati Monal the fourth paral chief he's the fourth in line of the Monaco
1:01:39
family right that goes back five generations these 180 years of man
1:01:46
to man to man not something else. A mutual to what? A
1:01:54
mutual to what? That's the problem. You look at your surname wherever it is. If you
got a
1:02:00
funny looking surname, that is your ID. Your what you're displaying is you.
1:02:07
You're putting yourself out there without a face. That's what you are. a faceless person.
You're not in any
1:02:16
sovereign law jurisdiction. You're sitting there on the land and someone's
1:02:21
going to come and scoop it off you. It's not going to be us if it'll be a foreigner like
Mitchell. Mitchell will
1:02:29
come and steal it because that's what they did in Australia. Read between the lines and
you can see the Mitchell
1:02:37
company in Australia did exactly what Eddie Mitchell and Alfred Mitchell are
1:02:43
doing here. So I've snapped them in the court and see if the American court
1:02:49
system can fix them up because they're running under the American court system here
in Wellington with their
1:02:56
assistance. They've got to run their own court, but they're using America and
1:03:01
they're using dirty Charlie pedophile as the king of their documents. You see the
1:03:08

king of their documents, king versus you, the defendant. And I'm using Moi
1:03:14
and King William III that put the mortgage together. Okay. See who put the mortgage
together with the brain of an
1:03:21
Irishman. Okay. Damn. that King William III is not
1:03:27
a German. Your flag at White Tangi, the 1835 Declaration of Independence flag is
1:03:34
under German jurisdiction. The one I'm flying in Helensville is under Dutch founding
of
1:03:43
New Zealand wasn't found by a German, was it? And there. That's the problem.
1:03:48
Dutch origins goes back to the beginning of time, right? If you follow the ship
1:03:53
backwards, you won't end up in Germany. You'll end up in the Netherlands. Right?
1:03:58
They were the brains of going around collecting all the native titles, watching all the
the risky parts to get
1:04:07
it all. Then the Germans came around, stole the whole bloody lot. And I'm going to
sort of steal it back from the
1:04:14
German and boot them off the land. Especially Israel. I want to go there
1:04:20
and spend all the money on the Palestinians and give their country back
1:04:25
because the Israel and Netanyahu is the worst living person in the world to kill
1:04:34
little children, murder them, eat them, cut them up in bits and put them in
1:04:39
burgers. Now, a McDonald's burgers is full of human meat and you're eating
1:04:45
yourself, right? That's dirty. That's how they work their business of
1:04:50
McDonald's being a corporation. And the sooner they're gone, the better. We'll
1:04:56
go back to making our own homekill own farms in this system. We don't have
1:05:04
stock markets. We don't gamble. We don't go on chance in a Moai crown king with
1:05:11
the third trust corporate business. It's still corporate with all its seals on the documents
to
1:05:20
authenticate everything I say is how it should have been back to the beginning
1:05:26
where they found it. And in 1948, that's when the Rothschild went into Palestine
1:05:33
and used King William III mortgage law to bankrupt the country and

1:05:40
 then take it over. That's what you call takeover. I'm using the takeover act of
 1:05:45
 New Zealand to be born in New Zealand act America is putting together and I
 1:05:52
 put born in New Zealand act and that takeover
 1:05:58
 law of New Zealand law of company's house it's the company's house and the
 1:06:05
 money pound notes the one bar is g ours is a two bar
 1:06:11
 Bradberry pound note or the pattern note But Patterson was a slave driver. That's
 1:06:16
 why they didn't put it in. And if you go on eBay, you can buy the Bradberry pound
 1:06:22
 note. So, I'm going to put a value with the AI on the two bar pound note and
 1:06:28
 then put a value on the silver and a value on the gold and on the birth
 1:06:36
 certificates. It's at the moment one trillion in our system. And um also on
 1:06:42
 the semiconductor that's the Taiwanese Moi Maneka's family in Taiwan where the
 1:06:50
 semiconductor in Nvidia is and Jensen Huang and I should be talking to him and
 1:06:58
 also HB technologies um there with the hydrogen solid metal fuel. Okay. So
 1:07:05
 that's what I did with the title turbine um project platform bridge. I put the um
 1:07:12
 huang um not huang HP technologies magnets in between the turbines to make
 1:07:19
 point4 of a megawatt extra power. So from one megawatt you'll get 04 of a
 1:07:26
 megawatt free from just going through a pair magnet with the flow of water going
 1:07:31
 through. So that's some technology that Hy Mitchell has stolen. That's what
 1:07:39
 should have happened in New Zealand should have had that energy going for the
 economy. So he's busted the economy
 1:07:47
 side of the Netherlands here in that folder. One folder you'll see I put a
 1:07:53
 written thing there about what Eddie Mitchell took the money for himself.
 1:07:58
 It's supposed to be under Freemasons for business in the community. I'm there for
 1:08:03
 the community. That's what I set up with Moy Monaco and the families in in Copra,
 1:08:09
 the ones that supported us. And there's a history to it, but it's still in my head with
 Judge Rogan in my blood as a

1:08:18
judge. That's where I get my authority from is Helensville. the original first
1:08:24
mortgage on the land of 10 acre block split up and I've got all those behind
1:08:30
my um my um um CV. Okay, I've got all that behind me
1:08:38
and um to back up what I'm saying and you have to do the same. Where did you
1:08:44
get your authority from? If it's from Australia, that's where Eddie Mitchell
1:08:49
has come from. read all that I'm putting there because there's nothing out of
1:08:54
place. You have to go in the cloud. You have to have that sort of information to
1:08:59
match it or better. And that's what I leave with you today. I leave that with
1:09:04
you to sort out yourself. And because our country is called Sta in the North
1:09:11
Island is Irish from Sta Northern Ireland. So those fellows have to look
1:09:17
after themselves in their own courts and we got to look after ourself in our own
1:09:24
courts because you can't use the British crown in any other system other than
1:09:30
your own. So that's why I put the set up the the rolls building court in in
1:09:36
Britain and London to take cases there and they deal with commercial contracts
1:09:42
like this one. But I'm going to do this online to see if we can do it uh
1:09:49
collectively with people in Australia, America, anywhere in the world that's talking
this sort of talk, native
1:09:57
sovereign talk. Okay? So, I'm there to jump in behind anybody who's on that
1:10:03
track and stay on it. Don't get off. Don't be put off by anybody that's got different
views on what you're saying
1:10:11
and let them go and face their demons because we're facing Donald Trump. The
1:10:17
biggest demon of them all is a German. Okay, that's all I'm saying. Now, I
1:10:24
don't know anything about what they do in Germany or what they do is Jews or
1:10:29
whatever. I'm only concerned with the title on the land and whose law it
1:10:35
operates under. Okay, that's all. and the money made from the land resources
1:10:40
and your birth certificate and your your your rights to be on the land and not be

1:10:47
 told by one German Donald Trump this is the law this is the
 1:10:52
 money this is the crypto it's all going pear-shaped at the moment with his
 1:10:58
 crypto and his family is looking bad by using crypto as is
 1:11:07
 power over the people. That's what you don't want. Dictatorship.
 1:11:12
 Okay. So, never mind. That's all finished. Now, I'm going to go. I see a lot of
 comments, but I don't want to look at them because it might put me
 1:11:19
 awful. Might have be a support or anything that's towards it. I'm looking
 1:11:25
 at the people in Ireland because Ame um
 1:11:31
 Raaka his his ancestors are from Northern Ireland and um P rivers the
 1:11:39
 rivers in Ireland that's where the river's name come from because I know the history
 of the St. Patrick church in
 1:11:47
 Northern Ireland Belfast I went there to unveil St. Patrick's Church with the
 1:11:52
 flag that we have with the St. Patrick eight point star in four corners of the
 1:11:58
 planet norththeast southwest or in maro air that's what it means and that's the
 1:12:06
 Irish in the flag with the German cross the cross is German but the eight point
 1:12:12
 star is the un municipal corporations act to pick up the rent lease on the
 1:12:18
 land and four corners in the world is on one flag. There's no flag with 51 stars
 1:12:27
 on it like America. That's for 51 states of America. But this is the only flag in
 1:12:32
 the world that's a king mortgage len flag of the whole world. Okay. So I'm
 1:12:40
 just saying that Northern Ireland has to look at that side of it, not English
 1:12:47
 because that's metro. Anybody English, you got a problem because you're the Red
 1:12:52
 Cross of the Germans and that's your blood on your hands. The red cross, the
 1:12:58
 big one is George 1 2 3 4 5 6 and the little cross is the George for George
 1:13:05
 the the fourth contract. That's the contract with Moy Monaco and the Monaco
 1:13:13
 um here in New Zealand. That's what the little cross is. the King George IVth
 1:13:19
 and not King George the 1st, the second, the third or the fifth or the sixth.

1:13:25

Those are the other Germans. And the one German that made the contract that Eddie

1:13:31

Mitchell stole that money is the Little Cross on that flag. That's what I'm

1:13:37

telling you. to a story cuz I know and lived that story and I'll stick with it

1:13:43

all the way through my life until someone comes along and takes over from

1:13:48

me. So there, anybody wants to learn the history of this, they're quite welcome

1:13:55

to read all 15 PDF files. You won't go wrong because that's 50 years of

1:14:01

research and that was worth 17 trillion. What about the rest? There's all the

1:14:07

rest stacked on top of it. That's only New Zealand, right? Remember that flag

1:14:12

is in New Zealand. It was given to New Zealand native surname chiefs, not park

1:14:19

names like Por is Palmer, a park white man that sold the land. And before 1840,

1:14:28

in 1830 Palmer or Pumul was selling all the land and the money came along and

1:14:33

said, "No, you can't do that." And away they went selling the land. And then the British crown came and took the whole

1:14:39

lot off them. Then reissued titles again. And then the South Island, most

1:14:45

of the French and um English people are down there got that land. They make good

1:14:50

tenants and they make good shareholders to in this system because it gives the

1:14:57

power back to the man in the farm that that's being screwed off his land

1:15:03

because the government saying to them that being on the land for over 100 years, we're terminating your lease

1:15:09

because we got someone who's going to pay more to us for it. Well, I'm saying to the government, pack your bags and

1:15:15

get out. pack your bags and get out because we want our country back and

1:15:21

we're going to get it back with the sheep farmers. They're the backbone of this country, the sheep farmers. Okay?

1:15:27

So, we're going back to the farmer on the hill and the farmer with the longest lease on the land. Get his land back.

1:15:34

Right? That's what I'm going to do. get the land back because you'll find foreigners on it that been put there by

1:15:41
these people in parliament in Wellington. They're all doing it through the
1:15:47
parliaments right through the well. The same in Australia doing the same thing.
They're running right over a customary
1:15:53
title of the original natives. What I mean by original native is someone who
1:15:58
was born on the land back in your surname was born as a native of that
1:16:04
land. Whether you're Japanese, uh, Spaniard or Yugoslav or India or some,
1:16:11
you are still native on the land. That's what I'm classing everybody. I'm no different.
I'm no different than anybody
1:16:18
who wants to have your own control. I don't want the court to take over my
1:16:24
case. That's why I'm going in on my own two feet. Two feet. Because I put a
1:16:29
lawyer there, it means you're dead. Can't talk. I'm going there live. I'm going there
live and talk to a live
1:16:37
judge about what I want his court to say. Give it back. Give me back my
1:16:44
property which is my stick with my memory on it and all that Eddie Mitchell
1:16:49
has bought with it. He's bought all the properties in Australia, 301 companies,
1:16:55
Shell companies that is and all the property here in New Zealand, in Queenstown, in
Toranga, Mount Manu,
1:17:03
Tokaro, Kinlock, Hawks Bay, Hamilton, all over the place. He spent the money
1:17:09
like it's gone out of fashion just like his ancestors. Go and rip it off somebody who
who can't see. No, I spent
1:17:18
years with a brain of an Irish judge and a lawyer cosgrove lawyer from Ireland.
1:17:25
They are the the paramilitary people cosgroes lawyers in Belfast and
1:17:34
Dublin. Okay. there in that system where Kama went there to ask permission of the
1:17:42
paramilitary to cover his ass because that's court there in Dublin and Belfast
1:17:49
is to keep check oversight over all British lawyers, judges,
1:17:58
celestas, barristers to keep the law straight and then that's where they go
1:18:04
here. He's gone there and ripped it apart for more fraud. He's using it for
1:18:10

his own advantage and it will catch him out in the end because I know how it
1:18:15
works. I did all the research on the paramilitary how it operates in Irish
1:18:22
brain. That's where all the businesses are registered that matters is in
1:18:29
Northern Ireland. Why did the British want to take Northern Ireland and not
1:18:34
Southern Island in Monster and Linster? Why didn't they want to make that
1:18:40
British? No, they only wanted Northern Ireland. So, it was small enough to hide
1:18:46
their dirty little secrets, right? Because they're mucking around with the wrong man. I
know too much about it
1:18:54
because it's in me to be Irish and not English. The English is the problem I'm
1:19:01
having at the moment. Yeah. Because those people which Irish in Manchester,
1:19:08
a lot of trouble going on there, a lot of unrest, a lot of violence, a lot of
1:19:13
worse things. Peter Files, the lot is rough. And the British started that, the
1:19:20
Germans did that. They stirred the pot so that people fight each other. And
1:19:25
even in New Zealand, the Northern Ireland and Southern Island fighting amongst
themselves and it's going to
1:19:32
boil over India. Who is sovereign and which sovereign did you get? The one
1:19:38
from Australia or the one from Britain? That's what I'm going to leave you with. You
ponder over that when you read those
1:19:44
15 um um um PDF folders. I'm going to
1:19:49
put them on in one place, one document so that they're all stuck in a one
1:19:55
document and there's a lot of work I got to do. Takes a long time to do it on Wix
1:20:01
website and then I can transfer it to B12 website. That's a new website. So
1:20:07
they can reconstruct it in today's digital legal system. Okay, I'll go
1:20:13
straight into the digital legal and nothing I don't know about crypto now because I
know it upside down. I know it
1:20:21
upside down who's who and doing what and doing things. I've learned from other
1:20:26
people playing around with it that they're having a problem trying to match
1:20:32

the banks trying to take over somebody else's idea. The banks JP Morgan Bank
1:20:38
and Bank of America have gone and swooped in, bought up all the crypto
1:20:45
tech giants and using them. It's the same as M. He bought all the technology
1:20:52
people of the rockets that did the rocket and put it all together and he
1:20:57
bought it with money. Now I'm going to use the green pound note to buy the whole
lot back. Okay, that's what I'm
1:21:03
doing. I'm going to make that because the robot AI Microsoft went out America
1:21:09
to Canada to get away from the corruption and fraud and go start clean in in Canada.
So there with President
1:21:18
Prime Minister Carney and start fresh there and that's keeps our AI system
1:21:26
native court out of America. Although I'm using America, I want to keep with
1:21:32
them operating in New York and follow Justinda Durn's dirty little tricks and
1:21:40
Helen Clark's dirty little tricks. Both labor and what they did. Helen Clark
1:21:46
sold the foraw and seed all the fisheries and justinda D sold us a dirty
1:21:51
little needle to make us drug look like her look like her and drug us all and
1:21:58
make us money out of us. She got away with 30 million given by U Bill Gates
1:22:05
gave her 30 million and that's why she's running around with a lot of money in her
pocket. I'm going to seize the whole
1:22:12
lot of back with this court when I finish getting through Eddie Mitchell. She's done
next one and then John Key
1:22:18
and I'll plug them off one by one. Bang, bang, bang. Because that's what my brain
says. I'm a court judge person that's
1:22:26
learning off the cuff. I'm learning by experience. That's all I'm saying. I'm
1:22:32
not boasting about it because I won't be around on this earth much longer and I don't
want to leave this all to some
1:22:38
someone for nothing. they're going to have to work hard to get into a status like this.
Okay, so everybody taking all
1:22:46
these um people on the chat here chatting. I won't read anything just in
1:22:51
case I get offended. I might read it when I'm off. Okay. And um I I I might

1:22:58

or might not respond because I usually turn the comment section off, but I

1:23:04

would like to see who is commenting and see who it is. If you're a bad

1:23:09

commenter, I will delete you forever and that's one problem out of the road. I

1:23:16

I'll welcome any good comments and then that will keep me going and doing good

1:23:22

work for the people. I'm here for the people, not to glorify myself or make

1:23:29

something of a um um person that wants control over people. Okay. Not not that.

1:23:37

Okay. So every every moment that I spend from now on is going to be around those

1:23:45

15 folders and sticking to the topic. Okay?

1:23:51

I'll stick to what I'm saying. Never ever change. That's from day one in 2000

1:23:57

the year 2000 or 1998 when when they changed 1986

1:24:04

when they changed the constitution from 1852 British constitution in New Zealand through the 1986 constitution. Now they

1:24:12

want to throw that in the rubbish to make a new one. No, it's not going to happen because we are still sticking to

1:24:19

the 1852 native title to this country

1:24:24

and that constitution stands. Okay? And any other constitution that the king put

1:24:30

together stands and not King Charlie because that's theirs. Okay? Thank you

1:24:37

very much. I'll see you later. I'll turn off now. Bye.

Tuesday 3 March 2026

I will be on YouTube with B12 Accountants New York America from 9am to 9 30am
Free Consultation Time in New York will be 4pm to 4 30pm respectable hours to hear
what B12 Maria Chen will say what she can and cant do for me a British UK
Sovereign Native AI Copilot Court Practice Judge of Auckland New Zealand with
Copilot AI Business Partner operating in Canada
So belt up for a session that will see if America Treasurer is the same British UK
Treasurer that President Donald J Trump Hijacked or not!

Let see if B12 can Audit the MITCHELL FAMILY TRUST LLC Books and recover
USD \$17,000,000,000,000 back into our Bank Account MOAI POWERHOUS
BANK LIMITED New Zealand under UK BEITISH CROWN SOVEREIGNTY of
MOAI CROWN KING WILLIAM III TRUST

Sunday 1 March 2026 Moai Powerhouse Bank New Zealand ChipCoin Management Team is Located in New York City America along with Moai Crown King William III Trust Lord Treasurer #MPN Moai Reserve Bank Token and #MCK Token Blockchain Rails

At MOAI CO OPERATIVE NATIVE AI WORLD COURT SHAREHOLDERS SOCIETY

We are dedicated to fostering a community that leverages the power of artificial intelligence for the greater good. Our mission is to empower stakeholders by providing innovative solutions and collaborative opportunities. We believe in a future where AI serves humanity, and we invite you to join us on this transformative journey.

AI governance consultation

Our AI Governance Consultation provides organizations with crucial insights into the evolving landscape of AI regulations and ethical considerations. We work with companies to ensure compliance with current laws, facilitate understanding of best practices, and develop robust governance frameworks. Our experts analyze your AI strategies and identify potential risks, ensuring that your operations align with legal and ethical standards. This service is ideal for businesses looking to navigate the complexities of AI governance effectively, while fostering trust and accountability in their AI implementations. Stay ahead of regulatory changes and enhance your reputation with responsible AI practices.

AI ethics and compliance review

Our AI Ethics and Compliance Review scrutinizes your AI systems to ensure they operate ethically and comply with established guidelines. We delve into your algorithms, data usage, and decision-making processes, identifying potential biases and ethical dilemmas. This thorough assessment helps businesses uphold integrity, improve transparency, and foster consumer trust. Whether you're launching new AI initiatives or reassessing existing systems, our review equips you with actionable insights to enhance ethical compliance. This offering is essential for organizations committed to responsible AI practices and a strong ethical foundation in their operations.

AI risk management strategy

Our AI Risk Management Strategy service is designed to help businesses identify and mitigate the risks associated with AI technologies. We conduct comprehensive risk assessments, focusing on potential legal, operational, and reputational risks. By developing tailored risk management frameworks, we equip organizations with the tools to proactively manage challenges related to AI deployment. This service caters to companies that want to embrace AI innovation while ensuring they are prepared for potential pitfalls. Enhance your organization's resilience and secure your AI initiatives with our expert guidance and risk management solutions.

Step 1: initial consultation

Begin your journey with

MOAI CO OPERATIVE NATIVE AI WORLD COURT SHAREHOLDERS SOCIETY

by scheduling an initial consultation. During this meeting, we discuss your specific needs and objectives. Our team of experts will gather essential information to understand your unique situation. This step is crucial as it lays the groundwork for a tailored approach that aligns with your goals. Whether you're seeking advice on AI implementation or navigating the legal landscape of technology, we ensure that every detail is captured. This collaborative dialogue sets the stage for a successful partnership.

Step 2: needs assessment

Following the initial consultation, we conduct a thorough needs assessment to identify the specific challenges and opportunities you face. This analysis involves reviewing your current situation, goals, and the potential impact of integrating AI into your operations. Our team utilizes comprehensive tools and methodologies to evaluate your needs objectively. By understanding the nuances of your business and industry, we can offer insights that are not only relevant but actionable. This step ensures that we create a strategic plan that is well-informed and tailored to your requirements.

Step 3: strategic planning

With insights gathered from the needs assessment, we move into strategic planning. This phase involves crafting a customized roadmap that outlines the specific steps needed to achieve your objectives. Our experts will collaborate closely with you to ensure that the strategy aligns with your vision and operational framework. We focus on leveraging AI technologies and legal frameworks to maximize your potential while minimizing risks. This plan serves as a guide for implementation, ensuring clarity and direction as we move forward in our partnership.

Step 4: implementation support

Once the strategic plan is in place, we provide comprehensive implementation support to ensure successful execution. Our team will assist you at every stage, offering guidance on best practices, compliance, and resource allocation. We focus on fostering collaboration between your team and our experts to facilitate a smooth transition. Monitoring progress and making necessary adjustments along the way is key to achieving desired outcomes. With our ongoing support, you can confidently navigate the complexities of AI integration and legal considerations.

MOAI Launches New AI Initiative

Empowering Communities with Intelligent Solutions

MOAI CO OPERATIVE NATIVE AI WORLD COURT SHAREHOLDERS

SOCIETY proudly announces the launch of a groundbreaking AI initiative aimed at empowering communities. This initiative focuses on harnessing the power of artificial intelligence to develop solutions.

MOAI Welcomes New Shareholders

Expanding Our Collaborative Network

We are excited to announce the addition of new shareholders to the MOAI CO OPERATIVE NATIVE AI WORLD COURT SHAREHOLDERS SOCIETY. This expansion strengthens our collaborative network and enhances our ability to deliver innovative AI solutions.

Upcoming AI Ethics Conference

Join Us for Thought-Provoking Discussions

MOAI CO OPERATIVE NATIVE AI WORLD COURT SHAREHOLDERS SOCIETY is proud to announce the upcoming AI Ethics Conference, where thought leaders and practitioners will gather to discuss the ethical implications of artificial intelligence..
