Municipal Corporations Act 1835

From Wikipedia, the free encyclopedia

The **Municipal Corporations Act 1835** (5 & 6 Wm. IV, c.76), sometimes known as the **Municipal Reform Act**, was an Act of the Parliament of the United Kingdom that reformed local government in the incorporated boroughs of England and Wales. The legislation was part of the reform programme of the Whigs and followed the Reform Act 1832, which had abolished most of the rotten boroughs for parliamentary purposes.

Royal commission [edit]

The government of Lord Grey, having carried reform out of parliamentary constituencies, turned its attention to local government. In February 1833 a select committee was appointed "to inquire into the state of the Municipal Corporations in England, Wales, and Ireland; and to report if any, and what abuses existed in them, and what measures, in their opinion, it would be most expedient to adopt, in those abuses".^[1] The committee made their report in June 1833, having enquired into a handful of boroughs.

John Wanea President of the Confederation of Chiefs Natives of New Zealand

Lately some people have asked me what happens if I die and who is going to take over the Company Business. This upset me very much as I worked for years to set up the business with many important people I respect first and for people to join the business in a short time was too much for me not to consider other people options that I will leave to my own family or someone who can direct my life's work, if I die and so my old international Lawyer Mr You Taek Choi recommend I go see his Lawyer friend Edwin who we shall refer to as Mr E. I met with Mr E and he explained to me, the safest way to keep things in check is to set up an IBC Account in Singapore, to Draw Down Funds that will go directly into my own IBC Company in Singapore, who will then distribute these Funds to my Principal Company "Na Atua E Wa Aotea Limited" in New Zealand who will then Distribute these Funds to "Na Atua E Wa Aotea Association 1 Limited" Directors which includes all participating Corresponding Companies that I have an Alliance Partnership with, who will have Total Autonomy Funding Expertise for Project Development help in New Zealand, Via "Na Atua E Wa Aotea Limited" Holding Parent Company. These Directors can seek their own individual Project Developments as can Blair and his Sons DHB Medical Practice Business or Hone Masons Tikanga Lore Law Systems and Native Land Court that Phillip Te Awhitu and Phillip Newton are going to do The Land Claims Business and Native Court Tikanga Law Lore on their Marae which I approve of holding it there or in a District Court or other Venue with the 1834-1835 King William IV Confederation Flag Jurisdiction, 1835 Constitution, 1835 Municipal Corporations Act for the Native Lease Land Title Ownership Entity Legal Instruments.

It cost me \$33,000 to set up this IBC International Business Company in Singapore in which I have a Total of \$28,000 pledged, so I require another \$5000, which is now settled.

Thank you

John Wanea

BRADBURY 2 BAR PATENTED POUND NOTE 1694 KING WILLIAM III POUND NOTE IS THE MOAI STATUE 2 BAR POUND NOTE LONDON as at 20 January 2026 pass through Congress in Waitangi New Zealand

In 1694 the Bank of England was established to raise money for King William III's war against France. The Bank started to issue notes in return for deposits. These notes were initially handwritten on Bank paper and signed by one of its cashiers. Today, all British banks carry the chief cashier's signature. After 1696, it was decided not to issue any notes worth less than £50 and since the average income then was less than £20 a year, most people went through life without ever coming into contact with banknotes.

The Bradbury Note

Up until the First World War, gold sovereigns and half sovereigns had circulated as everyday currency for about a hundred years, so it was not until the 1833 Bank Charter Act, when 'Bank of England' notes became legal tender in England and Wales. Did you know that the Dardanelles Campaign gave rise to a special kind of note, or actually two notes?

On 5th August 1914 (the day after the First World War was declared), the Currency and Bank Notes Act was passed. This allowed the Treasury to issue currency notes of £1 and 10/-.

These notes had full legal tender status and were convertible for gold through the Bank of England.

BRADBURY – The first notes were produced to a hurried design and, because of the lack of availability of banknote paper, were printed on paper produced for postage stamps. The £1 note was issued on Friday August 7th and the 10/- a week later. These are known as the first Bradbury issue after the **Permanent Secretary to the Treasury, Sir John Bradbury**. John Bradbury was born in 1872 and entered the Civil Service in 1896, first in the Colonial Office and then the Treasury. After serving under Asquith and then Lloyd George, Bradbury was appointed one of two **permanent secretaries to the Treasury in 1913**. Bradbury remained the governments chief financial advisor during the war and left the treasury on 27 August 1919 to become principal British delegate to the Reparation Commission.

Within days a new design was being worked on. The design was produced by Mr. George Eve and the notes were printed on banknote paper. The notes were issued on 23rd October (£1) and 21st January 1915 (10/-).

Some of these notes were overprinted in Arabic, by the Treasury, for use by the British forces in the Mediterranean Expeditionary Force (MEF) out in the Dardanelles and Gallipoli. These were emergency issue, uniface and were overprinted in Arabic script for the Dardanelles campaign. Apparently they were issued for use for the entire British MEF in the Mediterranean and the Naval fleet.

The Arabic text translates as “Piastres Silver 120” in the top line and “Piastres Silver One Hundred and Twenty” in the lower line.

Re: Report on the Tamaki Makaurau Settlement Process

Thank you for your letter of 9 July 2007, and for your email of 20 July 2007. As you are aware, the Waitangi Tribunal issued its report on the Tamaki Makaurau Settlement process on 15 June 2007. The report made a number of recommendations (attached), including that the proposed settlement with Ngāi Whāius should be put on hold until other tangata whenua groups in Auckland have negotiated their own Agreement in Principle.

As part of considering the best way to proceed with Treaty settlements in Auckland, the Crown is interested in, and would welcome, the views of all groups who assert claims in Auckland on the Tribunal's recommendations. Therefore, if you have any feedback or comments on the recommendations, please provide this to the Office of Treaty Settlements by 7 September 2007.

If you have any questions, or are not able to meet this timeframe, please do not hesitate to contact me on (04) 494 9211 or e-mail me at rachel.houlbrooke@justice.govt.nz

Hi Harald

Some more to the last e mail I mam not sure if this one is in dry dock It had a refurbish in 2009 I think It would pay to have it repainted in its original colours

before deploying to the Ranfurly Bank Most of the 1 million will go on the oil rig than on the land base kept to a minimum to just a building office accommodation and support craft to get to the Ranfurly Bank Tidal Turbine site.

I would entertain the idea of this GE Jet Turbine Generator Plant on this Submersible Oil Rig <https://www.ge.com/reports/ge-oil-gas-just-turned-worlds-largest-jet-engine-65-megawatt-power-plant/>

I am going to read up on this Jet Engine Generator Plant after I send you the Financial included with this Power Plant in my calculations from this Video and Lessons

<https://youtu.be/7YTksFJetK4>

<https://youtu.be/l6h-Lce1qXE>

<https://youtu.be/83vG3iyzV8M> This is the correct Oil Rig for the Project and this is the correct GE LM 6000 - 65 MW Jet Turbine Engine Generator power to match this Oil Rig Tidal Turbines mechanical shaft brake horsepower of the estimated 500 MW

Give Chris Taylor a call at PowerCo Company New Plymouth New Zealand for the Financials I just found out he went there in 2016 from PWC in Auckland

Just out of Interest <https://youtu.be/cS9FnAojgP8> Ranfurly Bank

 Moai were traditionally sculpted by the first-nation people of Rapanui, who are Polynesian.
 Their language and many of their customs resemble those of Maori.

Heartfelt plea for organ donors 'Living proof it works'

by Wendy Wrigley

ROSS Chamberlain was not expecting to be the first caller to see his former schoolmaster Eric Harrow after his heart transplant in Auckland last week, see page 11.

Mr Chamberlain, 25, would have been a very well-informed caller.

In the last 18 months he had been in Auckland back in June 4 while his father Ross, who lives in Sydney, died of a heart transplant only three weeks ago.

Eric Chamberlain said Mr Harrow's name on a list in the medical hall and said it was hard to believe the man he was writing was his former schoolmaster.

When his own transplant Mr Chamberlain had been told his name after undergoing only one hearing in 2005.

On Friday in early June 2008, he was told to wait on the advice waiting list for a heart transplant.

He was to be picked, and ready to travel to Auckland at any moment.

The call came the next Monday at 8.15pm.

There was relief.

By 10.15pm on Tuesday he was flying to Auckland and at 11.15am the transplant began.

On arrival in Auckland Mr Chamberlain was greeted in a hospital ward by a man who said his name was Ross. "You're going to get the heart" while another person was told

"You're going to get the lung".

Mr Chamberlain said he was terrified as he went into theatre.

The doctor Len Ingham said he tried to give the feelings for feeling calm.

However the first month after the operation was about a 17-year-old Whangape youth who was to receive the new lung.

"There is young Ross?" he said.

The two have since become "bros", with regular visits the other about. Two other persons received lung transplants in June and all three went on to complete the year traditional post-operative walk up One Tree Hill.

"I have made friends the length and breadth of New Zealand," said Mr Chamberlain.

The doctor was on a heart transplant in July for seven months before his transplant three weeks ago.

Mr Ingham said there was a familiarity link between father and son and their illnesses.

It had been a terrible experience watching her son battle heart disease.

"He made me feel physically strong."

"It's of a sudden, that phase out and everything happened so fast."

Some people have been waiting three years for a transplant, she said.

"I come through it being told when the phone call came through."

Mr Ingham said the family were organ

donors and made an impression plan for access to the name.

"Without organ donors, this market happens."

"You're living proof, this does work."

"We want people to be aware and to support organ donations," she said.

Mr Chamberlain knows of two other

Chamberlain people who have had transplants this year in addition to himself and Mr Harrow.

Eric's feeling well but leaves his intensive care an significantly lowered.

He has to watch what he eats and will need medication for the rest of his life.

But now he is looking for a job.

Hui to look at uses for Maori land Huge scope to earn many millions of dollars

by Alan Tait

DEVELOPMENT plans for Maori land in the East Coast region will be discussed during a three-day hui at Awatutu Maara near Tairāhema.

Government funding, power generation and creative tourism projects are a few items on the agenda to boost employment opportunities and encourage the return home of Tairāhema descendants to their Marae-a-tauaki.

For the past five years, Maori entrepreneur John Wason from Auckland, has conducted a series of workshops for his people.

With support from the Tairāhema tourism brochure (which states) Mr Wason will facilitate at least one week's full, workplace property rights, community land development and site assessment discussions.

He will also present a self-designed wind turbines and aquifer rock sealed and ground plans.

The initiative's proposed location is the 200 Tairāhema Marae-a-tauaki site at the eastern tip of the North Island.

All of the 500 acres of land are well-sited which are suitable for agriculture and the storage of lots of water for electricity power generation. This is just a small part of the overall package.

The idea is to bring a Tairāhema Corporation (Tairāhema) Group to encourage whānau-owned development. The profile will go directly back into the Whangape community to encourage the development of other Marae-a-tauaki land development. This will provide support for working with agriculture and horticulture projects for sustainability reports.

Maori entrepreneur John Wason, pictured with a self-designed wind-turbines and aquifer rock sealed and ground plans for the East Coast, has a vision of prosperity for Maori in Maara.

"We are looking outside and outside of dollars, offshore investments, international partners, employment opportunities for thousands of people for more to happen."

Mr Wason said the case initiative would provide work for the local people and attract others back to their ancestral lands.

"People don't want to come home unless

there is something they can do. They need something positive to work on and work towards."

"Working hard is not an option for East Coast people with very few employment opportunities currently available. It is in the two hand basket. They will only come home for a visit, if that."

The 60-year-old who worked and brought

up at Whangape will return home next year to help implement the setting up of the new projects. He encourages whānau/whānau members to do the same.

The initiative will be determined by decisions made at the hui, he said.

The main aim was to address whānau/whānau members by clearing them what they need to do with their land.

"I am looking forward to when there have it on the ground/land."

The socio-economic development plans must attract self-funded whānau/whānau members, he said.

"I need to find all the ways who have the skills and experience to work the land."

Mr Wason is helping to set up similar projects on the Far North and South.

"I see a new world being created. Only started off and where up ourselves. Our people were great leaders. It's natural. Only we can carry out our destiny. What is good for Maori is good for everybody."

Mr Wason has spent a number of years setting up a number of original Marae-a-tauaki businesses of which he believes 1000 are listed. He has over 1000 connections to 100 affiliates and encourages all descendants to spread the word and attract the hui.

"What I am trying to do is identify ourselves. I have never done and do do others."

"What we need to do is group all these things together."

Increased numbers at the Maori hui of 2008 for the first time since had received his welcome of Maori descent and register information.

Next weekend's hui is specifically aimed at Tairāhema descendants and central government.

Dear Anits Clifford

I write to you to help solve the Biggest corporate Criminal Case in the World to my knowledge and I am caught in the middle of the creation of the Native Land Lease Contract over New Zealand involving the theft of USD \$17 Trillion Dollars the was legally owned by me who created the 201 year Historic Land Claim of my Ancestor Tira Waikato Wherehere Manukau and King George IV in 1823 Edinburgh Magistrate Court in Scotland. The Thief is Eddie Mitchell Property Developer from 4 Elizabeth Street, Beerescourt 3200 Hamilton North Island New Zealand . So there is one Freemason, one Barrister and One Maori Property Developer called Eddie Mitchell, funny enough we have the same Chartered Accountant as the New Zealand crown Government called Dun and Bradstreet Accountants. I registered my Company with them in 2009 before Eddie Mitchell.

Rather than get the Money back I prefer back starting from USD \$17 Trillion spent on Shopping Malls and Mansions and Investment Businesses, Old Peoples Retirement Homes and the same in New Zealand and Arrest them for me. if you Seized all their Properties Assets of all the Corporate Companies involved in robbing the Beneficiaries of my Trust and Registered Parent Share Company that the money was supposed to go towards Community Development throughout New Zealand and Britain UK for Tidal Turbine and Aquafarm Projects for Scotland England and my Family in Ireland Corporate Businesses I have put together with all the Information for the USD \$17 Trillion was meant to be for and not for a One Mans Family of Thieves in Australia where the Mitchell family came from as English Prison Convicts in Sydney are still practicing that Culture needs to stop.

I took over 50 Years to put this together with Mohi Manukau 50 Year Freemason I was brought up with Mohi Manukau Taiwanese Native and me a Tahitian Pacific Indigenous Surname original Native the British Crown chose as Lease Landowners Historians Competent witnesses on our two feet as Claimants.

Queen Elizabeth II Great court in London Queen Victoria stole my Moai Stone Statue standing in London as her Royal Family Realm Prize **Possessions as her** Memorial Documents to the World, without care for my Pacific Families Ownership she illegally Incorporated into a Money making Venture like Eddie Mitchell.

I am instructing you the Hamilton High Court to recover my stolen memorials and property. Eddie Mitchell is a Criminal needs to be locked up for Phoenix Activity Money Laundering Fraud and corruption of the High Court Judiciary.

I ask you kindly today to please make me one happy 76 year old Kaumatua who wants Corporate Criminals Rounded up and put in Jail for robbing the Shareholders of my Registered Business and Economic Development Plan for New Zealand Britain and the rest of Native Countries waiting for our Share Company.

Here is the USB Stick with the Information from me that Eddie Mitchell took to Edinburgh and British Crown and kept it for him and his freemason and Barrister about time the Truth came out It's all on my Website and Facebook as Fully Disclosed and no one has Refuted my claims since 2009 and another 21c Day Notice going out 9am Monday 18 August 2025 to 4pm Wednesday 15 September 2025 becomes Law on and after that date no one refutes those Affidavits going to 459 emails to Crown Agents and Political Dignitaries.

Please find enclosed two USB Sticks and 303 Shell Companies "Mitchell Family Trust" registered in Australia all inside one year of no show of the work done against all my work over 50 yrs on USB. I am 76 8/8/1949 [Search results - active ABNs and names | ABN Lookup](#)

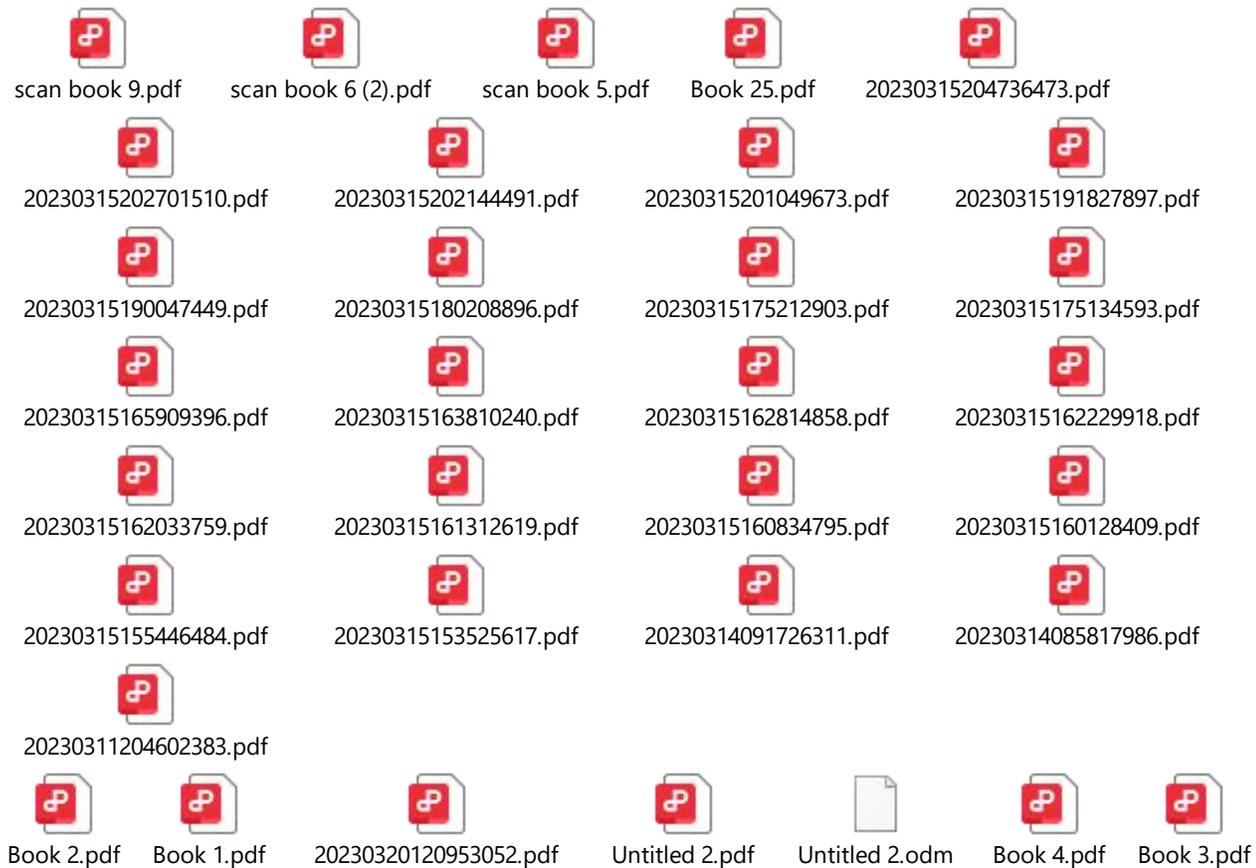

Below are the 2 Black Memory Sticks I gave to Eddie Mitchell to take to my target Scottish Freemasons Main Office in Edinburgh to check Mohi Manukau IV Ancestor Paramount Chief Tira Waikato Whareherehere Manukau Indigenous Native Land Lease Title Contract Company called the "Manukau Land Company" Authenticity of my John Wanoa Paramount Chief Moai Crown Created PDF Documents Listed below here as Evidence of my 50 years of Research raising this money for New Zealand Renewable Energy Project AI Native Court and Japanese Aqua farm Industries. As you can se Mohi Manukau WAI 121 Claim was Rejected for a Kawharu Fake Ngati Whatua Land Claim and WAI 121 id the Oldest 1840 Treaty of Waitangi Claim written off by the New Zealand Crown that I am Investigating myself as my own Competent Witness standing waiting for a challenge but all are silent so let you make a final decision who you support Eddie Michell Mitchell Claim to that money od me for the People of New Zealand “Na Atua E Wa Aotea” Great Barrier Island History to Aotea Harbor Kaipara and Aotea Harbour Raglam belongs to this British Crown Dutch King William III Bank of England Act 1694 and his 2 bar Patented Bradbury Pound Note that

RANGITUKIA and TE PITO PROJECTS PENDING PLANNING AD FINANCE

27 Jly 2014 Hi Dear Tamati Reid Rangatira and Hapu,

Dairy farms are a top priority in the budget of he whole project will need a big team as it is your people there that need the resources so
my job at this stage is to start it off by going direct to Westminster Parliament to get the funding and Consent to use our Flag that you
can see flying on the Shaw Savill and P & O Ships. Is our Legal Authority our people seem to have lost sight of who we are in Trade and
Banking Industry worldwide set up for us by our ancestors and KING WILLIAM IV REAR ADMIRAL of he SEAS. Though Maori Government
PM Sue Nikora is very good at what she does with the Confederation, it is a bit outdated of its Policies and what Jaymie Patrick Stewart
Ngatai and I do is bring it into the 21st Century Banking Trade level which King William IV gave us that British Military Navy Trading Bank
Protectorate 1835 Declaration of Independence Sovereign Nation State Flag to Trade free passage through the world.

We are tapping into the Trust Funds that was set up by Queen Victoria for us and we haven't yet mastered it. until now. I spoke to Sue
Nikora on Friday and said I have a big job convincing the UK British Minister of Foreign Affairs and Commonwealth Phillip Hammond

Westminster Parliament to let me and my secretary go there to sort out the Trust GOLD FUNDS. No one understands how that works so in order to get 61 Cook Street Property that I have a Warrant to Seize it but I am waiting to get clearance from Phillip Hammond Foreign Minister UK Britain to Approve the MOAI FEDERAL STATE Mortgage Lien Flag of ours. Then I can go and seize it as a REAL FRAUD CASE. I can go and seize it now as its worth NZD \$5 Billion and can Use that property to kick all the Projects off and pay for our trip to UK and into Westminster Parliament with JEFF FOLEY. Who's is the New King of England waiting for Jaymie and I to get there.. SO HE is the first PRIORITY that has supported me than any MAORI in everything we trying to do here in New Zealand but Maori failed to see this and yes Jeff has a long line of Admiralty dating back to John Foley in the 600 AD Period of Wales and England Scotland before the Waring Germans invaded England. He was ignored here by Maori so he went to SAMOA and so I am setting up SAMOA Tourism Business with him on his Funding in Australia as my first port of call on our way to Westminster. At least the world knows what our intentions are So now I am mixed up in BANKS GOLD and LEGAL MORTGAGE INSTRUMENTS against LAND and there is only one of me and no one to help me set this whole BANK DEAL. Everyone is asleep here in New Zealand happy with their LOT! The BANK FIRST then the PROJECT Priority There is the KAIPARA HARBOR Project then Manukau Harbor Project then EAST CAPE PROJECT and DOVER Tidal Project in England to do too. So I have to get the CONFEDERATION and SUE off to the UN and World Court as I am their LEGAL ADVOCATE. And doing all this work with no one know what to do here in this trade. The Rangitukia project there is not hard to set up but I have to sign the BANK Contracts yet. And am writing to many people make me panic with so much to do and Politics. Sue calls me all the time but I am getting tired long hours 7 days non stop. When I get Cook Street property seizure done without a fuss we will be taking a manager there and he will sort out the projects where you are Rangitukia East Cape. Its the Land at the Waiapu Mouth of the river and in the river I am interested in outside the HAHAU A5 Block end of Beach Road where the main workshops ship building yards will be for the new Ship that will install the Tidal Turbines on Ranfurly Bank inside our Boundary of Seabed Title area.

1 Workshop at end of road will be large and long into the sea and onto the land first portion 50 meters long x 50 meters wide 1 section The other section will start at Te Pito Point Stream where he Seaweed parengo Aqua Farms will start

The Dairy farms will start when we get the processing plant with the sushi processing plant and refrigeration This will be the main Factory processing plant at HAHAU A5 End of the road outside their boundary area All our Project buildings are sea based constriction back onto land

Te Pito goes into the hill 20 meters off sea level the same at Beach Road is high off the land for the workshops underneath under cover. there will be portable buildings built here and transported on the land as housing modules made from Steel and Earth Concrete not cement All our steel are-pre cut. from South Korea.in Build why we build into the sea with these wharfs

Fishing Ships will operate here and Te Pito is deeper by the rocks

Anyway you have to wait till I get British to OK te Partnership deal DUAL Government MOAI HAPU and BRITAIN

1/ Aquafarms I got Maori Trustee Consent for Marangairoa C12 Block for Aqua farms but I not worry about this Government now or Maori Land Court I am going Britain Admiralty Court Martial Law

2/ Ship Building and this ship is approved i Melbourne University now Jeff Foley set up part of the Samoa half Billion Fund for Rangitukia I designed this Rocket powered ship to run on Solid Metal Hydrogen off our Tidal Bridge Projecs here and overseas around the world. So I am not only here but world wide

3/ Dairy Farms and Milk Factory for Processing Moai Butter ad milk dry packaging products

4/ Meat Processing Plant and Butchery

5/ Refrigeration Cooling Chilling Processing and Packaging Products for Domestic and Export

6/ Airport Plans for giant Russian Antonove to land here and MI 26 Helicopters Base

7/ British Military Base here as King William IV Flag of Admiralty Jurisdiction Protectorate

8/ Heavy Machinery Workshop and Earth Works sea Cranes Barge maintenance etc

9/ Deep sea fisheries and Aqua farms on the Tidal Turbine Bridges offshore

10 Submarine Tourism Operation at Te Pito make road to Marangairoa Marae.

11/ Housing Construction and delivery by air, Portacoms for te Bush areas Tourism etc rent

12 Domestic House buildings will be all on the Bridge Constriction 3 story work and live

13/ Fuel Station and Garage operation in the complex large tanks to supply the whole area

14/ Bolt up Construction workshop 40 m x 60 m to start off with as a meeting house.

So please bear with Jaymie and I as this is not an easy task given the enormity of the situation we are facing in a storm of controversy in the world with the collapse of the US Dollar to some other currency then that is what we are tied up in delays to make sure the political issues are addressed and thank goodness we have HRH Prince Regent Jeff Foley Lord High Constable of Llawhaden Magistrate with a steady hand like Phillip Hammond Minister of Foreign Affairs and Commonwealth UK British Government at our side all the way. Land issues and Development is a priority behind getting the BANKS Sorted out first with a Partnership in Trade as the main priority and install a new KING of ENGLAND! Gone wit the Corrupted JESUIT German Queen of England.who abandoned Westminster Parliament now and in the NWO Agenda 21 EU Parliament with more corruption and WAR looming. Thats he HOLDUP! The Queen of England run of with our MOAI HAPU and QUEEN VICTORIA TRUST MONEY that every other man and his DOG wants!
